“ *I would like to share a memory with Doug's family. I never got to meet him myself but my husband is from Manteno and knew Doug and pretty much grew up around him. A few years back our family had a benefit for our son who was born with a number of complications. Doug sought out my husband at the benefit and hugged him and cried with him. I cried when my husband told me the story. The conversation with my husband will always remain with him and the story with me. May he rest in peace. Our thoughts are with the family.*
