“ *I remember the first time we met Harry. He told Vicki after she returned to Florida for the winter that something was missing when got home. She asked him if he had locked the door at the house and wondered what was missing. He told her that it was her that was missing! I knew from that time on that this man was going to be one hell of a man. I knew from that time on that this man was going to be one hell of a man For Vicki. They were together for about nine years and sure they had their ups and downs but this man really adored my sister as he would call her “little girl”. Harry you really tried hard to convince people that you were a real bad ass by underneath it all you were the biggest teddy bear there ever was. He opened his home to Vicki’s daughter and her family and treated them like family for my sis! Harry you will be so missed by all my family in Florida and thank you for all you did for Vicki. You made every outing with us very interesting and challenging as we never knew what may be said and how loud it was said! Lol. God speed. God bless your family! We will miss you the Florida Hulls , the Huza’s, and the Doughty families.*
