“ *Luther loved to talk! Most people probably didn't like that because they couldn't get away. When I first met Luther, he wanted to move into the Park that my parents built. Being the manager of Sunny Acres, he came to me. I remember one time he came and wanted to talk to me. Working constantly, I would listen to him as he spoke. I remember him saying "STOP working G D it! I just said, "I'm listening." He made me laugh. I enjoyed Luther because of his frankness. He did speak his mind. Something that I realized and appreciated. He made improvements to his home that helped make Sunny Acres better. Luther was a good person. Human and refreshing in his behavior. Bless you Luther. Go with God! Tom Renchen*
